PEDIATRIC PALLIATIVE CARE  
COALITION OF MINNESOTA

We are a collaboration of providers and caregivers who seek to improve Pediatric Palliative Care in Minnesota through education and advocacy. We work with community networks throughout Minnesota including the Twin Cities, Duluth, Rochester, Alexandria, St. Cloud, and other areas.

We strive to support and recognize the key elements of modern Pediatric Palliative Care practices, including all agencies, health care professionals, interested lay people, and caregivers who provide holistic care to children with life-threatening conditions and their families.

We extend an open invitation to any individuals or agencies that have an interest in Pediatric Palliative Care. [Contact us today!](#)
